# KOAMTAC Fundamentals
Establishing the AES Key Length for MSR

Choose the desired AES key length of encryption and scan below. You may also refer to the AES key length section 14.APPENDIX E – MSR special Barcodes (KDC415/425MSR) in the KDC manual. To download the user manual, go to koamtac.com>support>user manuals.
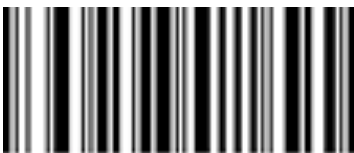

1D	**2D**
M8000	⊤MKDCM8000.
AES key length 128 bits	AES key length 128 bits
M8001	⊤MKDCM8001.
AES key length 192 bits	AES key length 192 bits
M8002	⊤MKDCM8002.
AES key length 256 bits	AES key length 256 bits
