KDC270 Ring Scanner Installation Manual

Installation Instructions

1. Open bottom flap and pull adaptor out of pocket being careful not to strain attached cable. (A,B)

2. Insert KDC270 into pocket and connect adaptor to bottom of scanner. (C,D)

3. Slide the KDC270, with adaptor attached, all the way into the pocket and close flap. (E,F)

4. If finger stabilizer is needed (typically when using scanner with 1 finger): open bottom strap and insert best-fitting stabilizer with broader side closest to scan button. (G, H, I)

Removal Instructions

1. Open flap and remove KDC270 half-way; any further may cause damage to the cable. (J,K)

2. Disconnect the adaptor from KDC270 one side at a time. Do not pull from both sides. (L,M)

Return adaptor to pocket and close flap for storage.
